

SUPERFAST FERRIES PURSUES NETWORK OPTIMIZATION

In response to market demand and pursuing European network optimization, Superfast Ferries wishes to announce that effective 10th November, 2005, its Germany-Finland routes will be operated with three Superfast ferries, Superfast VII, Superfast VIII and Superfast IX and two RoRo ships.

As of 8th November, 2005, the Superfast Ferries Scotland-Belgium service in the North Sea, will be operated with Superfast X.

Superfast Ferries maintains a leading position among ferry operators in the European ferry market with a strong presence in the Greece-Italy, Germany-Finland and Scotland-Belgium routes, with a modern fleet consisting of uniquely designed fast Ro-Pax ferries.
